DETAILED ACTION

Claims 1-20 and 26-41 are pending.

Election/Restrictions

Applicants election traversal is deemed persuasive and the requirement has been removed and these claims will be examined on the merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 and 26-41 are rejected under 35 U.S.C. 102(b) as being anticipated by Keim (USP 4361651), cited on enclosed PTO-1449 Form.

Claims are drawn to processes for wet-mill streams in order to separate protein therefrom.

Keim teaches processes for wet-mill streams in order to separate protein therefrom. See abstract and examples.

The claims are identical to the cited disclosure and, are therefore, considered to be anticipated by the teachings therein.

All claims fail to be patentably distinguishable over the state of the art discussed above and cited on the enclosed PTO-892 and/or PTO-1449. Therefore, the claims are properly rejected.

The remaining references listed on the enclosed PTO-892 and/or PTO-1449 are cited to further show the state of the art.

No claims are allowed.
